That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, over-work, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as Brown's Iron Bitters, and it does this by commencing at the foundation, and making the blood pure and rich.

> Wm. P. Marshall, of Logansport, Indiana, writes: " My wife has for many years been troubled from pain in her back and general debility incident to her sex. She has taken one bottle of Brown's Iron Bitters, and I can truthfully say that the has been so much benefited that she pronounces it the only remedy of many medicines she has tried."

Leading physicians and clergymen use and recommend Brown's Iron Bit-TERS. It has cured others suffering as you are, and it will cure you.

What Boys Wish to Become

When a boy has ceased to wish

to be a down he desires to drive an engine; and when that ar abition is passed, his next want is to go to sea. It is curious to of serve the uniformity of opinion among boys in these matters. You never hear of a lad passionately anxious to be a lawyer, and hiding himself in corners in order to read about the law; nor probably is a lad-s small lad-often for ind who devotes his days and ni ghts to thinking how delightful it must be to be a clegyman. To be a stock broker, a banker, a farmer, a member of congress, is not among the ambitions of boys. On engineering they have a few ideas outside the notion that an engineer, whether civil or otherwise, is an individual with a grimy face-a distinct advantage to boys, most of whom abhor soap-who stands behind a locomotive and makes it go along as fast as he pleases. The sea, bowever, is usually the boy's longest and most earnest dream. And it is not a little extraordinary that the hardest the roughest, and, having regard to the routine of its discipline and the character of its members, the most prosaic of all call ings should stand at the head of the profession as an inspiration of mantic fancies. The sea has a can only understand by becoming boys again in fancy, and thinking out of the minds they had when boys. Were it possible exactly to determine all that a lad dreams about the sea, the impulses which move him toward it, his ideas of life on board ship and the wonders of the world into which the mariner sails, we should find the picture wanting neither in pathos nor in humor-humor in the unlikeness to the truth, and pathos in the generous, child-like imagination which flings its wonderful light over one of the barshest and most unsympathetic of human facts, enriching it to such a degree that even the mature mind is

After suffer ing for nearly a year with rheumatism, receiving treatment from the the best physicians of Michigan and the West, I happened to try a bottle of St. Jacobs Oil. Upon the first application I used fully half a bottle, and its effect was almost instantaneous. I immediately dropped all other treatment, and confined myself to its use alone. SAN FRANCISCO, April 11th, 1883. DEAR SIRS;

For general convenience we have sent a supply of No. 30, 12ply Genuine Scotch Salmon Net Twine, to the care of A. M. JOHNSON & CO., Astoria, which will be sold at low enough figures to make it an object for all net menders to use it for repairs, in place of the more costly No. 40, 12-

Fishermen who have heretofore used this grade of twine for repairs, claim that the durability of the patch is equal to the balance of the net, after the latter has had a few weeks use. We think it will be money in your pocket to try it. For prices and samples apply to A. M. JOHNSON & CO.,
